20 years of Classical Archaeology from Tarragona!

The ICAC celebrates its first 20 years, since its creation, in the fall of 2002.

This fall will mark the 20th anniversary since the ICAC started its research activity. In 2002, the Institute began its first projects under the direction of Josep Guitart, located in a temporary classroom donated by the URV. The current headquarters, in Plaça d'en Rovellat in Tarragona, were inaugurated in September 2003. This 2022-2023 academic year, therefore, we are celebrating the 20th anniversary of the Institute.

20 years of Classical Archaeology, based in Tarragona

The ICAC is 20 years later a consolidated center, and an international reference in its field. Recognized and leader, fully competitive in innovation and project development. Today made up of almost sixty people, with researchers from different nationalities, the growth of recent years has been very significant. This would not have been possible without the effort and dedication, throughout these 20 years, of the entire ICAC community, as well as of the institutions and people who have supported us in academic and scientific initiatives of all kinds.

That is why we have organized an **event to celebrate the 20th anniversary of the ICAC** (below, you can see the program), which will take place at the ICAC headquarters, in Tarragona, **next Friday, October 14**. The event will have a scientific and commemorative seminar format, with interventions by various authorities and people linked to the history of the ICAC.

Program of the celebration of the 20th anniversary of the ICAC

10 a.m. Opening event

Contingut extret de la web de l'ICAC (www.icac.cat)
