Open call for four positions at the ICAC within the framework of the Investigo program

Open call at the Catalan Institute of Classical Archaeology with three positions as technologists and one position as a technician, to work in different units of the Institute, within the framework of the Investigo program.

The Investigo program (Agència de Gestió d'Ajuts Universitaris i de Recerca) aims to fund programs for the hiring of young people (under 30 years of age) seeking employment for the development and exercise of functions, tasks, and research and innovation initiatives hired as (1) researchers with a doctorate degree, (2) technologist staff and (3) technicians, development and innovation staff.

At the Catalan Institute of Classical Archaeology, a total of four positions are offered: three positions as technologists and one position as a technician.

Check out the four calls at **Working at the ICAC/Open Calls**.

Deadline for applications ends October 16!

The four available positions are:

1. Technologist assigned to the ICAC Archaeobiology Laboratory

The selected person will join the Landscape Archeology research group (GIAP) and will work with the Archaeobotany, Archaeozoology, and Paleoenvironment teams (code 017.119 and 100011TG1 of the Investigo Program).

Call 1 (technologist Archaeobiology Lab GIAP)

2. Technologist for knowledge transfer and dissemination

The selected person will join the Communication and Publishing Department at the Research Management and Assistance Area (code 017.120 and 100011TG2 of the Investigo Program), to implement knowledge transfer and socialization projects, among other tasks.

Call 2 (technologist knowledge transfer ICAC)

3. Technologist for knowledge transfer and dissemination: scientific output and research data

The selected person will join the Documentation Center and Library (code 017.121 and 100011TG3 of the Investigo Program) for the management of the platforms for the open dissemination of scientific production and research data, among other tasks.

Call 3 (technologist scientific output and research data ICAC)

4. Technician assigned to the ICAC Archaeometry Laboratory

The selected person will join the Archaeometry and Artistic Productions research group (ArPA) and will work at the Archaeometric Studies Unit (UEA) (code 017.122 and 100011TC1 of the Investigo Program).

Call 4 (technician Archaeometry Lab ArPA)

Check out the four calls at **Working at the ICAC/Open Calls**.
