Open call for researcher in Archaeozoology in the GIAP research group

The Catalan Institute of Classical Archaeology opens a call for a full-time researcher in Archaeozoology, linked to the GIAP research group.

The ICAC looks for a researcher to manage the scientific-technical activities in the field of archaeozoology of the GIAP's lines of research in Archaeozoology, with the following functions:

1. Developing contents and outreach related to the research on livestock and archaeology carried out within the framework of GIAP projects. In particular, the studies of dental microwear of different faunal assemblages in the Empordà geographical area from the Iberian period to Late Antiquity.
2. Assistance for dissemination and knowledge transfer actions in the field of Archaeozoology and Landscape Archeology coming from GIAP projects in the Empordà.
   For this purpose, and according to the current regulations, the ICAC director has approved (in this Resolution) the call for an indefinite full-time job position linked to the GIAP research group (call code 017.42). To carry out this activity, candidates have to hold Phd degree on Archeology. Experience and training related to this call skills are a plus.

More information at: Working at the ICAC/Open Calls
